Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

This is a Final Office Action in response to Applicant's amendment filed on March 9, 2004.

Claims 1-24 are presented for further examination.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims **1-24** are rejected under 35 U.S.C. 102(e) as being anticipated by Goshey et al (hereinafter, "Goshey", 6473,783)

As per claims **1, 9 and 17**, Goshey discloses an information processing apparatus for use in managing a network system provided with a plurality of information processing apparatuses to each of which connected is a shared device that can be used by another information processing apparatus through the network, said information apparatus comprising:

- management means for managing the information of a shared device present in the network system (col. 2, lines 41-65, col. 4, lines 39-57, col. 6, lines 57-67 and col. 7, lines 1-60);
- reception means for receiving the information of a shared device connected to another information processing apparatus (col. 2, lines 41-65, col. 10, lines 39-67 and col. 14, lines 15-47); and

- transmission means for transmitting the information of a shared device connected said information processing apparatus to another information processing apparatus on the network system (col. 2, lines 41-65, col. 10, lines 39-67 and col. 14, lines 15-47).
- renewal means for changing information on a status or connected condition of the shared device displayed on a display of said information processing apparatus in accordance with the information managed by said management means, based on the information received by said reception means (col. 8, lines 22-43, line 67 and col. 9, lines 1-14; Goshey discloses a server that sends messages to a client to let them know if the shared the device is already in use or busy. Therefore, Goshey discloses changing information on a status or connected condition of the shared device displayed on a display of said information processing apparatus in accordance with the information managed by said management means, based on the information received by said reception means).

As per claims 2, 10 and 18, Goshey discloses

- wherein said reception means includes first reception control means for designating a group satisfying a predetermined condition and receiving the information of the shared device included in said group (col. 2, lines 41-65 and col. 10, lines 39-67).

As per claims 3, 11 and 19, Goshey discloses:

- wherein said reception means includes second reception control means for detecting log-on of another information processing apparatus to the network system and receiving the information of the shared device of the other information processing apparatus (col. 11, lines 66-67 and col. 12, lines 1-62).

Art Unit: 2157

As per claims 4, 12 and 20, Goshey discloses:

- wherein said reception means is adapted, at the log-on to the network system, to automatically receive the information of the shared device present in the network system (col. 11, lines 66-67 and col. 12, lines 1-62).

As per claims 5, 13 and 21, Goshey discloses:

- wherein said transmission means is adapted, in response to the detection of a change in the status of a shared device connected to the own apparatus, to transmit information on the status after the change (col. 2, lines 41-65, col. 10, lines 39-67 and col. 14, lines 15-47).

As per claims 6, 14 and 22, Goshey discloses:

- wherein said transmission means is adapted, at the log-on to the network system, to automatically transmit -the information of the shared device connected to said information processing apparatus (col. 11, lines 66-67 and col. 12, lines 1-62).

As per claims 7, 15 and 23, Goshey discloses:

- wherein said renewal means is adapted, in response to the detection of log-off of another information processing apparatus from the network system, to invalidate the information of the shared device of the other information processing apparatus in said management means (col. 8, lines 22-43, line 67, col. 9, lines 1-14, col. 10, lines 32-50 and lines 57-67).

As per claims 8, 16 and 24, Goshey discloses:

- wherein said transmission means is adapted, in informing the other information processing apparatus of the shared device connected to said information processing

apparatus, selectively to execute a first method for transmission to a predetermined management apparatus on the network system or a second method for transmission to the other information processing apparatus through said network system (col. 2, lines 41-65, col. 10, lines 39-67 and col. 14, lines 15-47).

Response to Arguments

3. Applicant's arguments with respect to claims 1-24 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
